Warnings for Use of Cotton Bags with Cotton Handles and Sacks:

a) The product is intended for users over 7 years of age – risk of placing the fabric in the mouth or wrapping oneself in the material.
b) Keep away from small children and animals – risk of choking on loose threads or handles.
c) The bag is not waterproof – avoid contact with water or moisture to prevent damage to the contents.
d) Avoid overloading the bag – exceeding the recommended load capacity may cause the handles or fabric to tear. The recommended maximum load capacity is 12 kg.
e) Avoid contact with sharp objects – risk of tearing the fabric or damaging the handles.
f) Avoid contact with aggressive chemical agents, which may cause discoloration or weaken the material.
g) The product is not fire-resistant – keep away from open flames and high temperatures
h) The product is not edible.
i) Allergic reactions to dyes or other materials used in production may occur.
j) Avoid prolonged exposure to high temperatures to prevent material damage or handle deformation.
k) The bag is not a protective or specialized product – it does not protect against mechanical damage or extreme conditions.
l) Wash and care for the product according to the label instructions to extend its lifespan.
m) Do not iron over the print.
n) The product is suitable for everyday use – it is not intended for carrying very heavy or sharp objects.
o) After use, dispose of the product in accordance with local textile waste regulations.

Warnings for Use of Cotton T-shirts and Polo Shirts:

a) The product is intended for users over 7 years of age – risk of placing the fabric in the mouth or wrapping oneself in the material.
b) Keep away from small children and animals – risk of choking on loose threads or finishing elements.
c) Avoid contact with sharp objects – risk of fabric damage, abrasion, or tearing.
d) Avoid contact with aggressive chemical agents, which may cause discoloration or material damage
e) The product is not fire-resistant – keep away from open flames and high temperatures.
f) The product is not edible.
g) Allergic reactions to dyes or other materials used in production may occur.
h) It is recommended to wash the garment before first use to remove any potential chemical residues.
i) Avoid prolonged exposure to high temperatures (e.g. tumble dryers, hot irons without protective layers) to prevent fabric or print damage.
j) The T-shirt is not protective or specialized clothing – it does not provide protection against injuries or extreme conditions.
k) Wash and care for the product according to the label instructions to extend its lifespan.
l) Do not iron over the print.
m) The product is suitable for everyday use – it is not intended for intensive sports activities without additional functional support.
n) After use, dispose of the product in accordance with local waste disposal regulations.

Warnings for Use of Cotton Sweatshirts With and Without a Hood:

a) The product is intended for users over 7 years of age – risk of placing the fabric in the mouth (particularly the hood with drawstrings).
b) Keep away from small children and animals – risk of entanglement in hood drawstrings or loose elements.
c) Avoid using the hood near moving machine parts or vehicles – risk of entanglement and injury.
d) Avoid contact with sharp objects – risk of fabric damage, abrasion, or tearing.
e) Avoid contact with aggressive chemical agents, which may cause discoloration or material damage.
f) The product is not fire-resistant – keep away from open flames and high temperatures.
g) Allergic reactions to dyes or other materials used in production may occur.
h) It is recommended to wash the garment before first use to remove any potential chemical residues.
i) Avoid prolonged exposure to high temperatures (e.g. tumble dryers, hot irons without protective layers) to prevent material or print damage.
j) Wash and care for the product according to the label instructions to extend its lifespan.
k) Do not iron over the print.

l) Hooded sweatshirt: handle the drawstrings with care – do not pull or use them for hanging the garment.
m) Non-hooded sweatshirt: ensure proper fit to avoid chafing or discomfort.
n) The product is not protective or specialized clothing – it does not provide protection against injuries or extreme weather conditions.
o) The product is suitable for everyday use – it is not intended for intensive sports activities without additional functional support.
p) After use, dispose of the product in accordance with local textile waste regulations.

Warnings for Use of Fleece Garments

a) The product is intended for users over 7 years of age.
b) Keep away from small children and animals – risk of entanglement in loose threads or finishing elements.
c) Avoid contact with sharp objects – risk of fabric damage, snagging, or tearing.
d) Avoid contact with aggressive chemical agents, which may cause discoloration or material degradation.
e) The product is not fire-resistant – keep away from open flames and high temperatures.
f) Allergic reactions to dyes or materials used in production may occur.
g) It is recommended to wash the garment before first use to remove any potential chemical residues.
h) Wash and care for the product according to the label instructions to extend its lifespan.
i) Do not iron over the print.
j) Avoid using strong detergents and bleaches.
k) The product is not protective or specialized clothing – it does not provide protection against injuries or extreme weather conditions.
l) The product is suitable for everyday use and light outdoor activities but is not intended for intensive sports applications without appropriate functional support.
m) After use, dispose of the product in accordance with local textile waste regulations.

Warnings for Use of Softshell Clothing

a) The product is intended for users over 7 years of age.
b) Keep away from small children and animals – risk of fabric damage caused by claws or sharp elements.
c) Avoid contact with sharp objects – risk of tearing or snagging the material.
d) Avoid contact with aggressive chemical agents, which may weaken the waterproof or breathable coating.
e) The product is not fire-resistant – keep away from open flames and high temperatures.
f) Allergic reactions to dyes or materials used in production may occur.
g) Wash and care for the product according to the label instructions to extend its lifespan.
h) Avoid tumble drying to preserve the membrane and fabric properties.
i) Do not iron – high temperatures may damage the coating and fabric structure.
j) Softshell clothing is not protective equipment and does not provide resistance to extreme mechanical or chemical hazards.
k) The product is suitable for outdoor activities and everyday use but does not replace specialized clothing designed for harsh conditions.
l) After use, dispose of the product in accordance with local textile waste regulations.

Warnings for Use of Jackets (With and Without Zippers)

a) The product is intended for users over 7 years of age.
b) Keep away from small children and animals – risk of fingers or other body parts getting caught in zippers.
c) Be careful to avoid pinching the skin or fabric when opening and closing the zipper.
d) Avoid contact with sharp objects – risk of fabric or zipper damage.
e) Avoid contact with aggressive chemical agents, which may cause discoloration or damage to the fabric and metal components.
f) The product is not fire-resistant – keep away from open flames and high temperatures.
g) Allergic reactions to dyes, materials, or metal components (e.g. zippers) may occur.
h) Wash and care for the product according to the label instructions to extend its lifespan.
i) Do not iron over the print.
j) Avoid using bleach or fabric softeners, as they may damage the material and zippers.
k) Dry naturally; avoid tumble drying to prevent deformation or damage to the components.
l) Do not iron directly over the zipper – high temperature may damage the fabric and metal or plastic elements.
m) The product is not protective or specialized clothing – it does not provide protection against mechanical injuries or extreme conditions.
n) After use, dispose of the product in accordance with local textile waste regulations.

Warnings for Use of Infant Hats

a) The product is intended for infants from 0 months of age, under adult supervision.
b) Keep away from small children without supervision – risk of suffocation or choking from loose elements (e.g. strings, ties).
c) Ensure the hat fits properly – not too tight and not too loose – to prevent discomfort or slipping over the face.
d) It is recommended to wash the product before first use to remove any chemical residues from production.
e) Wash and care for the product according to the label instructions to extend its lifespan, using gentle detergents suitable for infants.
f) Do not iron over the print.
g) The product is not a toy – use only as intended.
h) Regularly inspect the garment for damage or loose elements that may pose a hazard.
i) After use, dispose of the product in accordance with local textile waste regulations.

Warnings for Use of Children's Hats

a) The product is intended for children over 1 year of age, under adult supervision.
b) Keep away from small children without supervision – risk of suffocation or choking from loose elements (e.g. strings, ties).
c) Ensure the hat fits properly but does not press tightly on the head.
d) It is recommended to wash the product before first use to remove any chemical residues from production.
e) Wash and care for the product according to the label instructions to extend its lifespan, using gentle detergents suitable for children.
f) Do not iron over the print.
g) The hat is not protective or specialized clothing.
h) The product is not a toy – use only as intended.
i) Regularly inspect the garment for damage or loose elements that may pose a hazard.
j) After use, dispose of the product in accordance with local textile waste regulations.

Warnings for Use of Adult Hats

a) The product is intended for users over 7 years of age.
b) Ensure the hat fits properly to prevent slipping or discomfort.
c) Avoid contact with sharp objects that may damage the material.
d) It is recommended to wash the product before first use to remove any chemical residues from production.
e) Wash and care for the product according to the label instructions to extend its lifespan.
f) Do not iron over the print.
g) Allergic reactions to dyes or materials used in production may occur.
h) The product is not protective or specialized clothing.
i) After use, dispose of the product in accordance with local textile waste regulations.

Warnings for Use of Infant Clothing

a) The product is intended for infants from 0 months of age, under adult supervision.
b) Ensure the garment fits properly – not too tight and not restricting movement.
c) It is recommended to wash the product before first use to remove any chemical residues from production.
d) Wash according to the manufacturer's instructions, using gentle detergents suitable for infants.
e) The clothing is not a toy – use only as intended.
f) Regularly inspect the garment for damage or loose elements that may pose a hazard.
g) After use, dispose of the product in accordance with local textile waste regulations.

Warnings for Use of Children's Clothing

a) The product is intended for children over 1 year of age, under adult supervision.
b) Ensure the garment fits properly, does not restrict movement, and provides comfort.
c) It is recommended to wash the product before first use to remove any chemical residues from production.
d) Wash according to the manufacturer's instructions, using gentle detergents suitable for children.
e) The clothing is not protective or specialized wear.
f) The product is not a toy – use only as intended.
g) Regularly inspect the garment for damage or loose elements that may pose a hazard.
h) After use, dispose of the product in accordance with local textile waste regulations.

Warnings for Use of Sportswear

a) The product is intended for users over 7 years of age.
b) Avoid contact with sharp objects that may damage the fabric or garment components.
c) The product is not protective clothing – it does not provide protection against mechanical, chemical, or extreme weather hazards.
d) Allergic reactions to dyes or materials used in production may occur.
e) Wash and care for the product according to the label instructions to extend its lifespan.
f) Do not iron over the print.
g) Avoid using bleach and fabric softeners, as they may damage the fabric and its functional properties.
h) Dry naturally or according to the manufacturer's instructions; avoid tumble drying unless specifically recommended.
i) Do not iron if prohibited by the manufacturer – high temperatures may damage the fabric and prints.
j) Sportswear is not intended for everyday use as protective or specialized clothing.
k) After use, dispose of the product in accordance with local textile waste regulations.
